ABOUT ME

I am a Front-End Developer with 2+ years of experience specializing in Next.js, React.js, TypeScript, and TailwindCSS. I've worked on SaaS dashboards and learning platforms, focusing on clean, maintainable code and strong UI/UX. I enjoy building scalable front-end features, collaborating with teams, and continuously learning new technologies.

SKILLS

Frontend: Next.js, React.js, JavaScript (ES6+), TypeScript

UI & Styling: Tailwind CSS, MUI (Material UI)

State/Data & API: React Query

Data Visualization: Chart.js

Tools & Version Control: Git

Workflow/Methodologies: Scrum (Agile)

EXPERIENCE

TrueFlow, Remote - *Co-Founder & FrontEnd Engineer*

Nov 2025 - July 2026 - [TrueFlow.ir](#)

- Developed the front-end of an HRMS platform using Next.js, TypeScript, and Tailwind CSS.
- Built core modules including leave management, tasks, finance, departments, team chat, and settings.
- Implemented Feature-First architecture, internationalization (i18n), and reusable type-safe components for scalability.

Toppira, Remote - *Co-Founder & FrontEnd Engineer*

Sep 2025 - July 2026 - [Toppira.com](https://toppira.com)

- Developed an open-source AI-powered productivity platform using Next.js, TypeScript, and Tailwind CSS.
- Built core productivity features including task management, reminders, notes, and AI-assisted workflows.
- Designed scalable architecture, reusable components, and responsive user interfaces optimized for performance.

Qbify, Qazvin - *FrontEnd Developer*

July 2025 - Dec 2025 - *Not Open Source*

- Built and shipped major dashboard features, CRUD modules, forms, charts, and reusable UI components using Next.js and TypeScript.
- Integrated APIs with React Query and optimized data fetching strategies for improved performance.
- Collaborated with designers and backend engineers to deliver scalable, production-ready solutions.

Horton, Remote - *FrontEnd Developer*

Nov 2024 - June 2025 - hortonapp.com

- Developed the front-end of a language learning platform using Next.js, TypeScript, React Query, and MUI.
- Designed and implemented a vocabulary review system to improve user learning workflows.
- Built reusable UI components and optimized application performance and user experience.

Freelance Projects

Cafe & Restaurant Management, Qazvin - *FrontEnd Developer*

May 2026 - Present - boardlandcafe.ir

- Developed a board game café management platform featuring food ordering, game reservations, and customer self-service dashboards.
- Built scalable and responsive user interfaces using Next.js, TypeScript, Tailwind CSS, Zustand, and TanStack Query.
- Implemented admin modules for products, categories, inventory, orders, notifications, users, and permissions.

Gaming Pannel, Remote - *FrontEnd Developer*

Dec 2025 - Jan 2026 - *Available in GitHub*

- Developed a gaming management dashboard featuring player profiles, progression systems, businesses, properties, and battle pass modules.
- Built reusable components, dynamic forms, and complex data-driven interfaces using React, TypeScript, and Tailwind CSS.
- Integrated backend APIs and optimized performance, responsiveness, and overall user experience.

EDUCATION

Azad Univercity, Qazvin - *Computer Engineering*

2025 - Present

Sampad, Qazvin - *Mathematics*

2021 - 2025
